Ensure Your Green Resolutions Are in the Bag in 2009!

Recycle Enterprises Introduces Edmontonians to the Greener Side of Shopping

Edmonton, AB—Every year, the story is the same. Many of us ring in the New Year with resolutions that are nearly impossible to keep. But achieving any resolution, whether it is losing weight or being more environmentally active, is difficult when you don't have a set plan or an attainable goal. This year, "Go Greener" has become the third most popular New Year's resolution according to Amazon.com. To help Edmonton and area residents to be greener in 2009, Winnifred Stewart Association's Recycle Enterprises has taken the popular recyclable bag concept a step further.

"Too many plastic shopping bags are still making their way into landfills," says Vicky Andress of Recycle Enterprises Green Goods division. Green Goods hopes to change this with its latest product. It has created a 100% eco-friendly, recyclable and reusable grocery bag that locks in place in a standard shopping cart and secures cart items while they are in transit. After items are rung through at the check-out, users can just put them into the bag, pick up the handy bag by its sturdy handles, and go! "If more Edmontonians are introduced to the greener side of grocery shopping, we believe the impact on the environment will be significant." By incorporating the Green Goods shopping cart bag into their daily lives, users can keep excess plastic bags out of landfills, get their shopping done, *and* achieve their green resolution. To order Green Goods shopping cart bags with complimentary tote bag, visit www.recycleenterprises.com

Other Green Goods products include compostable trash bags, a complete line of garbage bags made from 100% recycled materials, and bio-degradable lawn bags. The best part about Green Goods is that all orders can be delivered directly to your doorstep free of charge and all proceeds go to the Winnifred Stewart Association, a non-profit organization that offers programs and services to individuals with developmental disabilities. Winnifred Stewart Association has been enhancing the quality of life for individuals with developmental disabilities for more than 55 years. As an association committed to providing residential services, recreation and leisure programs, and employment opportunities for those with developmental disabilities, WSA is excited to offer a Green Goods program that also supports Edmonton's 20th year of recycling.
